

Australian College *of* Educators

Elizabeth Delman, Evans River K-12 School

Elizabeth is a multi-talented and valued member of the Evans River K-12 staff. She began teaching at the school in 2010 and quickly established herself as an outstanding classroom teacher. Her attention to detail, creativity and thoroughness in preparation, provided students with an engaging and rewarding learning environment. Elizabeth has proven to have excellent communication skills with staff, students and parents. She has broadened the school's profile in the community through her leadership in initiating involvement in events such as Beef Meets Reef Week, Kindergarten Transition events, Book Week Parades and prize winning performances by her choirs at the Lismore Eisteddfod.

In 2014 Elizabeth began training as a Reading Recovery teacher and has since had a major impact on the lives of many students through this program and through her work in Learning Support. She continues to assist classroom teachers through her own initiative, developing programs for the new History and Geography syllabi on Google Classroom, including links to resources and teaching strategies. Elizabeth is a caring and thoughtful person and is always thinking about how she can improve the outcomes for students. Elizabeth is a worthy recipient of recognition on World Teachers' Day.
