

# Australian College *of* Educators

## **Kate Battiston, Nambucca Heads Public School**

Kate went to Nambucca Heads Public School for her primary schooling, studied locally and then became a temporary employee at Nambucca Heads Public School in 2009. Over the past two years Kate has been successful in becoming the Assistant Principal in 2016 and now the Instructional Leader Deputy Principal for 2017-2019. Kate has designed and constructed the school wide database for wellbeing and academic progress. This database provides the school with progress targets and leads the conversations within the professional learning teams. Kate has been invited to share this amazing work and provide Professional Learning for 40 other Instructional Leaders and it's expected that this model is to be taken on by the Department of Education across the state for Early Action For Success (EAFS) within the next year. Whilst doing this Kate also teaches music to the students in her own time and organises the school musical. The musical sold out on both nights this year! Kate is a massive asset to Nambucca Heads Public School and to the Department of Education. Kate is a worthy recipient of recognition on World Teachers' Day.
