

Australian College *of* Educators

Michael Hillery, Grafton High School

Michael has been an exceptional educator at Grafton High School over many years. He has been a leader in PDHPE contributing to the sporting culture of the school and the facilities that are available to our students. He was instrumental in the building of the High Performance centre which is now a fantastic resource for not only students but the wider community of Grafton. Michael has been a highly motivated teacher with outstanding HSC performances. The extent of his influence is further highlighted by the number of senior students who have been inspired to become educators in the Health and Physical Education profession. Michael is a worthy recipient of recognition on World Teachers' Day.
